

America's Best Cleaners Joins TCATA

###

Palm Beach Gardens, FL, September 22, 2022

America's Best Cleaners is proud to announce that it has become a member of the Textile Care Allied Trades Association (TCATA). As ABC continues to build on its position as the dry cleaning industry's most reputable certification agency, it looks to strengthen its relationships within the textile care community by partnering with the international trade association. Together, ABC and TCATA look to create a collective partnership that will provide professional benefits to ABC affiliates and TCATA members alike.

Based in Tampa, FL, TCATA is a 102-year-old international trade association that represents manufacturers and distributors of dry cleaning and laundry equipment and supplies. TCATA works hard to promote fair regulation and legislation by teaching professionalism in the industry through business operations, education, forums and more.

Leslie Schaeffer, CEO of TCATA said, "We are pleased to welcome America's Best Cleaners to TCATA. We look forward to many years of partnership in the industry."

As an industry leader, America's Best Cleaners remains keen on looking for ways to create a valuable network of industry professionals for its affiliates and consulting clients. With this association, ABC and TCATA look forward to raising the standards of excellence in the dry cleaning and laundry industry by forming a tight-knit community. Together, they look to expand the understanding of industry activities and bridge the gap with affiliates, manufacturers and other related trades.

Chris White, Executive Director of ABC shared, “As our industry continues to see consolidation in all channels we felt it necessary and extremely valuable to join TCATA to increase the direct communications of our affiliates with our partners in the allied trades. With the constant changes in the supply chain, we want our affiliates to be able to forecast and adjust to national and global interruptions in a timely manner. We believe this relationship will provide new opportunities for our affiliates to lead in product and service development as well as first to deploy new goods and services that the TCATA team and its members provide.”
